## Dialing tips while in Malaysia

### Fixed line:

Within same area: Dial last 8 digits if you are calling within the same area. (No need to use area code. E.g. Dial 23456789)

Another area or mobile phone: Use area code or mobile operator prefix, (number starts from 0, total 10 digits. E.g. 07 23456789)

*E.g.: when calling a KL number while in KL from a fixed line, you need not dial '03'. But if you are calling a mobile phone dial 01 XXXX XXXX or if you are calling Johor dial 07 XXXX XXXX).*

### Mobile Phone:

Either use area code or mobile operator prefixes when dialing numbers, (start with 0, for example 012 3456789).

Or If you are dialing with the Malaysian international codes always dial with a '+' or '00'. (For example, dial +60123456789 or 0060123456789. Do NOT dial 60123456789 only)
